Dear Mr. Conners:

The U.S. Environmental Protection Agency (EPA) Region 2 and the New Jersey Department of Environmental Protection (NJDEP) have completed our review of the CAMU Closure Construction Complete Report, dated September 8, 2021, and submitted for the Former Chevron Perth Amboy Facility, in Perth Amboy, New Jersey. This report was submitted by Chevron Environmental Management Company pursuant to the Resource Conservation and Recovery Act (RCRA), Hazardous and Solid Waste Amendments (HSWA) Permit of 2013, and the NJDEP Technical Requirements for Site Remediation, N.J.A.C.7:26E. We conditionally approve the report, pending that Chevron address the following general comments:

General Comments:

1. While EPA acknowledges that the construction of the liner and cap will serve as protective measures, can Chevron please confirm what measures it is taking to ensure that any potential future releases are minimized to the extent practicable.
2. Please confirm that no waste remains in the Primary and Secondary Staging and Treatment areas.

Should you have any questions or would like to discuss this matter further, I can be reached at 212-637-3703, or via email at vargas.ricardito@epa.gov.
